

From Our Family to Yours

DOING WHAT WE CAN...

A family business working to help preserve our environment today and for future generations.

KCMA/ESP "GREEN" PROGRAM

Haas is pleased to announce that we are recognized as a certified manufacturer under the Kitchen Cabinet Manufacturers Association (KCMA) administered Environmental Stewardship Program (ESP).

We have met the KCMA certification requirements in the areas of air quality, product and process resource management, environmental stewardship, and community relations. Haas will proudly display the ESP seal on our products. The ESP seal helps consumers identify cabinets and cabinet manufacturers who are committed to protecting the environment. As a requirement under the ESP Program, Haas will undergo a review annually to assure continued compliance within the ESP program.

MANUFACTURING RESPONSIBLY

Homeowners are not alone in the sustainability movement. Manufacturers have an enormous effect on the environment and the products that go into our homes. By employing sound environmental practices, we can ensure our impact is positive.

DEALERS AND DESIGNERS

ESP certified cabinets give you the opportunity to differentiate yourself as eco-friendly dealers or designers in a marketplace that is increasingly concerned with the environment. Consumers are placing more and more importance on eco-friendly options and with our ESP certified cabinets you can fulfill their needs. By recommending Haas ESP certified cabinets, dealers are offering their customers added benefits and peace of mind. You can provide them with high quality Haas cabinets manufactured by a family committed to protecting the environment. With our ESP certified cabinets, you can be sure the Haas cabinets you recommend for your customer are an environmentally responsible choice and that you are doing your part to protect the environment.
